

Informed Consent Statement

Name of the Journal: World Journal of Gastroenterology

Manuscript No: 35581

Study Title: Endoscopic Papillary Large Balloon Dilatation with Sphincterotomy is Safe and Effective for Biliary Stone Removal Independent of Timing and Size of Sphincterotomy

Authors List:

Aujla, I. Usman; FRCP

Ladep, G. Nimzing; PhD

Dwyer, K. Laura; BSc (Hon)

Hood, V. Stephen; MD, FRCP

Stern, Nicholas; MD, FRCP

Sturgess, Richard; MD, FRCP

I declare that patients were not required to give informed consent for the study because analysis used anonymous data that were obtained after each patient agreed to treatment by fully informed written consent.

Sincerely,

Corresponding Author: Dr Usman I Aujla, FRCP
