

Certificate of Biostatistics

21 July, 2022

To whom it may concern

Title of Study: Transcriptional factor III A (GTF3A) promotes colorectal cancer progression by upregulating cystatin A.

Chief investigator: Faqin Tang, Clinical Laboratory of Hunan Cancer Hospital and the affiliated Cancer Hospital of Xiangya School of Medicine, Central South University, Hunan Hunan Key Laboratory of Oncotarget Gene, China.

This letter is to confirm that I have read the Biostatistics for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Please contact me if you have any queries.

Sincerely,

Yuejin Li, M.D., Ph.D, Hunan Cancer Hospital and the affiliated Cancer Hospital of Xiangya School of Medicine, Central South University, Changsha 410013, China
