Dear Sir,

Re: Chronic Liver disease is universal in children with biliary atresia living with native liver

I, on behalf of the co-authors of the above manuscript, hereby declare that none of the co-authors have any conflict of interest, financial or otherwise, to declare.

None of the co-authors have received any speaking fees, research funding, or are employee of any pharmaceutical companies which have direct influence on the outcome of the research.

The present research is an investigator-initiated research and the research funding was from the University Malaya, Kuala Lumpur, Malaysia.

Thank you,

Professor Way Seah Lee
