**Bilateral retrocorneal hyaline scrolls secondary to asymptomatic congenital syphilis:  
A case report**

Bilateral retrocorneal hyaline scrolls

**Abstract**

**BACKGROUND**

Retrocorneal hyaline scrolls are a rare phenomenon. We report a case of bilateral retrocorneal hyaline scrolls that were likely induced by asymptomatic congenital syphilis.

**CASE SUMMARY**

A 71-year-old woman presented with blurred vision due to cataracts. Slit-lamp
