

October 9, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 13650-review.doc).

Title: Adiponectin: The probe of the molecular paradigm associating diabetes and obesity

Author: Kakali Ghoshal and Maitree Bhattacharyya

Name of Journal: *World Journal of Diabetes*

ESPS Manuscript NO: 13650

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Thank you for your valuable suggestions. We have corrected our manuscript as per your suggestion, *i.e.*, separately indicating human and mice adiponectin protein size (244 amino acid long chain in human and 247 amino acid long chain in mice). Page no. has been incorporated in the revised manuscript. In page no. 20, 2nd paragraph bold style has been used to highlight the major functions of adiponectin at one glance.

(2) Thank you for your valuable suggestions. Changes have been made in the revised manuscript accordingly.

(3) Thank you for your comments.

3 References and typesetting were corrected

Thank you again for reviewing our manuscript in the *World Journal of Diabetes*.

Sincerely yours,

A handwritten signature in blue ink, appearing to read 'Maitree Bhattacharyya', written over a light blue rectangular background.
