COMMENTS TO AUTHORS

Please reformulate: Postoperation opacification displayed the varices disappearance (Figure 4), and the portal-pressure gradient was 19 cmH₂O.

COMMENTS TO AUTHORS

Dear Editor Manuscript NO: 4707 The paper "Ileal conduit stomal variceal bleeding managed by endovascular embolization" is a case report of ectopic variceal bleeding from ileal conduit stoma which was solved by endovascular embolization via transjugular transhepatic approach. Some information about the patients would also be important: biochemical tests such as serum levels of platelets. Patient had portal hypertension?
