

**Name of journal: *World Journal of Gastrointestinal Surgery***

**ESPS Manuscript NO: 20161**

Answers

I revised the manuscript according to the reviewers' comments.

They were (1) In Figure 1, author should indicate the bursa omentalis using bold line. (2) In Figure 3, I think this figure is slightly different from original procedure.

I marked the bursa omentalis with bold lines and I omitted the Figure 3.

You will find the revised manuscript as enclosed.
