Successful surgical treatment for intrahepatic ... 翻译此页

Author: Hideyuki Takata, Hiroshi Makino, Tada...

Publish Year: 2019

作者: Hideyuki Takata

2019-4-23 · Intrahepatic arterioportal fistula (IAPF) is a rare cause of portal hypertension. Interventional radiology (IVR) is generally selected as the first-line therapeutic option. Surgical treatment for IAPF is required in refractory cases of IVR. As the treatment success rate with IVR is high, cases requiring surgical treatment are extremely rare. A 54-year-old man was admitted to another hospital ...

Arterial-portal fistula treated with hepatic arterial ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6710638>

Endovascular therapy thrombosed the aneurysm, ameliorated symptoms, and reduced aneurysm size, but was complicated by type 2 endoleak. This case highlights the limitations of arterial coil embolization alone for the treatment of complex vascular lesions.

Author: William A. Bremer, R. Peter Lokken, R... Publish Year: 2019

Portal hypertension induced by congenital hepatic ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4326165>

Feb 21, 2015 · The case report presents the clinical characteristics of congenital IAPF and discusses the treatment of IAPF. Because congenital hepatic arterioportal fistula is rare, it is often misdiagnosed. Therefore, clinicians should consider IAPF as a potential cause of non-cirrhotic portal hypertension.
