

Dear Reviewers,

First of all, we wish to thank you for reviewing our paper entitled “New Frontiers In Focal Therapy For Prostate Cancer: PSMA PET/MRI”. We realize that your time is valuable, and we are very grateful for your efforts.

We have carefully read all your comments and we have tried to clarify all the concerns expressed, improving the quality of the paper according to your suggestions. For your convenience, in addition to the revised manuscript, we report below our responses to your comments and the changes made in the manuscript.

Comment 1

However, the authors should define PET agent wherever PET/CT or PET/MRI used in the text.

All selected papers used PSMA as target PET. We specified this important point in the title of each paragraph. However, as suggested, we have added this specification into the main-text.

Comment 2
