COMMENTS TO AUTHORS

A comprehensive review of the topic, though an area with very specific interest. Comments; 1. please include a Figure on the search strategy and how authors decided to include or exclude some of the studies, the authors should be congratulated for including also the latest publications (some of the references need revision since the publications are now in final form with page numbers) 2. The abstract should be structured as requested by the journal 3. Please include "core tips" and "comments" sections, as requested by the journal

COMMENTS TO AUTHORS

I read the manuscript named "Endoscopic Papillary Large Balloon Dilatation fort the removal of bile duct stones ; A systematic review" (ESPS Manuscript NO: 5288) and my recommendations are as follows; Despite of several limitations, this manuscript is well written and documented. This manuscript gives additional new knowledge to the literature. I think that this manuscript is suitable and worth to be published in World Journal of Gastroenterology.
