

Dear reviewers,

thank you very much for reading my manuscript and for your comments!

I'm writing my revisions below and I'm highlighting it in the updated version of the manuscript:

1. I completed the following headlines „manuscript type“, „running title“, the ORCID-numbers and the „conflict of interest statement“ (page 1)
2. Insertion of the zip code of the city Düsseldorf (page 1)
3. I added two sentences in the abstract (page 2) (now the abstract has 207 words)
4. I completed the headlines core tip, the audio core tip is attached in a separated file
5. I changed the reference numbers in superscripted square brackets at the end of the sentence with no spaces
6. I changed „und“ to „and“ (page 3 line 5, page 7 line 5)
7. I added the comma which was missing after prefix (page 5 line 31, page 6 line 24, page 7 line 6, page 9 line 17)
8. I added the length in figure 1 for the SIF-H290S, 1830 mm
9. I added a separately column „image enhancement“.
