Assessment of nurse–patient communication and patient ...

<https://onlinelibrary.wiley.com/doi/full/10.1002/nop2.316>

The results show that most **patients** were dissatisfied with **nursing care**. More than 80% did not know their nurse. There was a correlation between nurse-**patient** communication and **patient satisfaction** with **nursing care** and the sex variable was found to be significantly correlated with **patients' satisfaction** level. The weakness of nurses ...

Integrating palliative care into the trajectory of cancer care

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4772864>

Introduction. Since the 1960s, when Dame Cicely Saunders established the modern hospice movement in the UK, palliative care has evolved from a philosophy aimed at improving care for **patients** at the end of life to a professional specialty that provides comprehensive care for **patients** with life-limiting illnesses, throughout the disease trajectory. 1 In the 1970s, Dr Balfour Mount coined the ...
