Title: Abnormal layering of muscularis propria, as a cause of chronic intestinal pseudo-obstruction: a case report and literature review

Author: Napat Angkathunyakul, Suporn Treepongkaruna, Sani Molagool, Nichanan Ruangwattanapaisarn

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 16271

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer

(1) The DNA analysis study was not performed due to unavailability in our country.
We added the statement in the discussion part.

(2) We reviewed and added discussion about Gattex (teduglutide) in discussion part.

(3) We added more details about the clinical outcome of previously reported cases, treatment modalities and prognosis of chronic intestinal pseudo-obstruction.

(4) The language has been polished by Mr. Stephen Pinder, the native American English speaker who is the International Ph.D. in Clinical Epidemiology program manager at Section for Clinical Epidemiology and Biostatistics in our faculty.

3 References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in blue ink that reads 'Napat A.'.
