COMMENTS TO AUTHORS

Nicely written comprehensive review on the management of urinary stones in CKD patients. The reviewer suggest one or two schematic illustrations showing PCNL and RIRS respectively. Minor language errors were directly corrected.

COMMENTS TO AUTHORS

This article is relevant to the audience. The abstract needs to be more elaborate. There are few typing errors in table 1 and 2. Some improvement in English and rectifying certain grammatical error is desirable. Considering that this is a review article, more elaborate discussion is desirable.
