Name of Journal: World Journal of Gastroenterology

ESPS Manuscript NO: 31288

Manuscript Type: ORIGINAL ARTICLE

Clinical Trials Study

Patients with non-viral liver disease have a greater tumour burden and less curative treatment options when diagnosed with hepatocellular carcinoma

Mohsen Waled, Rodov Marcia, Prakoso Emelia, Charlton Barbara, Bowen David, Koorey David, Shackel Nick, McCaughan Geoff, Strasser Simone

Abstract

AIM

To assess the impact of underlying liver disease etiology on the presenting features and outcomes in a large cohort of patients with HCC.

METHODS
