SPECIFIC COMMENTS TO AUTHORS

Dear Editor-in-Chief of the "World Journal of Clinical Cases" In the present paper (Case Report), the authors represent the "Malignant melanoma of the prostate: Primary or metastasis? A case report and literature review". In detail, the topic of the paper is interesting, but I have some major concerns about the paper which are listed as follows:

- o There are grammatical errors in the text. Please control the text in that manner. The paper needs language polishing.
- o The paper should be written scientifically. This type of writing is not correct.
- o The keywords should modify. The term of "primary" is not correct/suitable in this part.
- o The table is not at high resolution and I cannot read it.
- o Figures 4 and 5 need error bars.
- o Finally, the paper needs major revision.
