

Hello Dr. Fusco,

We reviewed the requirements from the journal with our Legal/Business Conduct team. Section 7 applies to grants sponsored by foundations or not-for-profit organizations:

**Step 7. Please provide the approved grant application form(s) or funding agency copy of any approval document(s)/letter(s).** For manuscripts supported by various foundations (*i.e.* charitable, not-for-profit organizations), the authors should provide a copy, in PDF format, of the full approved grant application form(s) or funding agency copy of any approval document(s)/letter(s), consisting of the information section and body section. The approved grant application form(s) or funding agency copy of any approval document(s)/letter(s) will be released online together with the manuscript in order for readers to obtain more information about the study and to increase the likelihood of subsequent citation.

Since funding was supported by Gilead, which is a for-profit company, this section does not apply for your ISR. However, it is customary that in the body of the manuscript, the authors state that the study is an investigator-sponsored research study supported by Gilead Sciences.

I apologize for the delay in response, if you have any question please do not hesitate to contact me.

Thank you again for all of your hard work on this important study.

Sincerely,  
Art
