RE: English Editing Certificate for Amadou et al. 2021

Dear Editor-in-Chief, Members of the Editorial Board,

I hereby certify that, in my capacity as a native English national and as a research scientist in the field of virology and cancer biology, I have read and, where appropriate, revised the English in the attached paper by Amadou et al., entitled “Decrease in liver cancer incidence rates in Bamako-Mali over 28 years of population-based cancer registration (1987-2015)”. In addition to my own first author or co-author publications, I have acted as English editor or French-English translator for more than 50 research articles, reviews or project applications since 2003. I find the language in the article to be clear and to a high standard of written English.

Yours faithfully,

10 place des Archives
