<input type="checkbox"/> Grade E: Poor		

JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

The presented review article is of interest for the readers of WJH and in general well written. The authors successfully implemented the criticisms and comments raised by the reviewers in the revised version of the manuscript. Accordingly, I have no additional comments to the contents of the review article. The language meets mainly the requirements for publication, however, there are still some minor spelling mistakes and therefore should be checked again carefully for spelling, grammar, and typing errors preferentially by a native English speaker. For that I consider accepting the revised manuscript for publication in World Journal of Hepatology after minor revision of the English spelling and grammar.
