Role of two-dimensional shear wave elastography in chronic liver diseases: A narrative review

Jeong JY *et al.* 2D-SWE in chronic liver diseases

Jae Yoon Jeong, Young Seo Cho, Joo Hyun Sohn

### Abstract

Liver biopsy is the gold standard for evaluating the degree of liver fibrosis in patients with chronic liver disease. However, due to the many limitations of liver biopsy, there has been much interest the use of noninvasive techniques for this purpose. Among these techniques real-time two-dimensional shear wave

Role of Two-Dimensional Shear Wave Elastography in Chronic Liver Dis
