Logical hypothesis: Low FODMAP diet to prevent diverticulitis

Uno Y *et al.* Low FODMAP diet for diverticulitis

Yoshiharu Uno, Jennifer C van Velkinburgh

Abstract

Despite little evidence for the therapeutic benefits of a high-fiber diet for diverticulitis, it is commonly recommended as part of the clinical management. The ongoing uncertainty of the cause(s) of diverticulitis confounds attempts to determine the validity of this therapy. However, the features of a high-fiber diet represent a logical contradiction for colon
