A Case of Esophageal Squamous Cell Carcinoma with ...<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3630318>

Mar 31, 2013 - Ductal carcinoma is the most common exocrine tumor of the pancreas and is subdivided into adenocarcinoma and squamous cell carcinoma. Recently, we confirmed a case of synchronous esophageal cancer with pancreatic metastasis and hepatocellular carcinoma (HCC). This is reported here along with a literature review.
