Observational Study

Successful combination of direct antiviral agents in liver-transplanted patients with recurrent hepatitis C virus

Christian Rupp, Theresa Hippchen, Manuel Neuberger, Peter Sauer, Jan Pfeiffenberger, Wolfgang Stremmel, Daniel Nils Gotthardt, Arianeb Mehrabi, Karl-Heinz Weiss

Abstract

AIM

To analyze the safety and efficiency of direct-acting antiviral (DAA) regimens in liver-transplanted patients with hepatitis C virus (HCV) reinfection.
