Object : submission of solicited article ID 02817363 to World Journal of Biological Chemistry

I undersigned, Angelo Parini, director of the UMR 1048, certifies that Dr. Carpené C., senior researcher at INSERM receives an annual and recurrent endowment from the INSERM for the Institut des Maladies Métaboliques et Cardiovasculaires for performing part of his research, alongside their granted projects.

The study submitted to publication by Carpené C. as corresponding author was approved by the Institutional Review Board of Institut des Maladies Métaboliques et Cardiovasculaires, I2MC Toulouse, France. It belongs to our approach in combatting obesity since 2000.

Angelo Parini

Head of Institut des Maladies Métaboliques et
Cardiovasculaires:
