Dear reviewer,

We are glad for the great evaluation and for your comments about our manuscript. Your suggestions were very useful in the improvement of the scientific quality of this article. We listed the changes suggested by you below and they were highlighted in **yellow** at the manuscript file:

- 1) We deleted the word "same" as requested;
- 2) We formatted the references "[8,25]" in page 12, as requested and highlighted in yellow.

Best regards,

Fabício Freire de Melo

Dear reviewer,

We are glad for the great evaluation and for your valuable comments on our manuscript. The following changes were made in order to improve the quality of our manuscript, as suggested by you:

- 1) In the Results, we checked and corrected the “n” of participants reported having a family income of up to one minimum wage, as highlighted in pink;
- 2) Also in the Results, in the fifth paragraph, the IC was checked and corrected, as highlighted in pink.

Best regards,

Fabrício Freire de Melo

Dear Ya-Juan Ma,

Thank you for your evaluation of our manuscript. The following changes were made in the manuscript as requested:

- 1) The original picture in PowerPoint file is attached to the submission now;
- 2) All references that have their DOI or PMID numbers available are in accordance with the requested format. However, some important references, as they have a more regional context of study or ordinances in the country, do not have the DOI or PMID number. We believe that it is not ideal to refer to articles without this identification, but these were extremely important for the project's viability in the regional context;
- 3) All references were checked and all authors names are available are listed;
- 4) The Article Highlights section is after the conclusion, highlighted in green.

Best regards,

Fabrício Freire de Melo

Professor, PhD
