

Name of journal: *World Journal of Hepatology*

ESPS Manuscript NO: 18679

Answer for reviewer 00503623: Thank you very much for your very good and precious review and valuable suggestions. We added the section entitled “Introduction” and subtitles defining discussed topics. We hope that this will contribute to a better organization of the article. We added also eight items of literature, among them very important suggested by Reviewer. Abstract – this section was redeployed to be more informative. The language was improved – checked by the professional American language office. Thank you again for your very constructive review.

Answer for reviewer 02531309: Thanks a lot for good opinion about our review article. Thanks also for your very important advises and suggestions. We send this article to the professional American language office to check the language of this paper. So, the grammatical errors have been eliminated. We completely agree with your opinion that the article involved many contents and it is impossible to go deeply into the whole subject. It is general review and we would like to point out some important aspects of this subject. It will be possible to go more deeply in particular issues in next, future papers. In order to facilitate reading and interpretation of some specific issues we introduced the subtitles. We also checked and added eight new references. Thank you again for your very constructive review.
