## COMMENTS TO AUTHORS

this topic is important in the clinical practice, often patients came with poor condition. The prognosis of acute hepatic failure caused by reactivation chronic hepatitis B can be improved by anti-viral therapy. There are some advises and correction: 1. the text too long (36 pages in word document) 2. placed of table title was not common (in the below table content) 3. figure 1 is not a figure 4. table 2 (algorithm) is not a table
