

Dear Editor,

Please find below the informed consent statement for the manuscript entitled:

“Incidental extravascular findings (EVIF) in patients undergoing upper limb computed tomographic angiography (CTA) performed for upper limb arterial assessment with special focus on undiagnosed malignancy.”

Authors:

Nourzaie R, Das JP, Abbas H, Thulasidasan N, Gkoutzios P , Ilyas S , Monzon L , Sabharwal T, Moser S , Diamantopoulos A. Department of Interventional Radiology, Guys’ and St. Thomas’ NHS Foundation Trust, London SE17EH , United Kingdom.

Informed consent statement:

- Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent.

Yours sincerely,

Athanasios Diamantopoulos, MD, PhD, EBIR
Consultant Interventional Radiologist & Honorary Senior Lecturer
Department of Interventional Radiology Division of Imaging Sciences
Guy's and St. Thomas' Hospitals School of Medicine, King's College London
