Retrospective Study

Comparison between the SAPIEN S3 and the SAPIEN XT transcatheter heart valves: A single-center experience

Fadi Sawaya, Marco Spaziano, Thierry Lefèvre, Andrew Roy, Phillippe Garot, Thomas Hovasse, Antoinette Neylon, Hakim Benamer, Mauro Romano, Thierry Untersee, Marie-Claude Morice, Bernard Chevalier

Abstract

Aims

12
This study sought to investigate the procedural, 30-day and 3
one-year clinical outcomes of transcatheter aortic valve implantation (TAVI) with the SAPIEN 3 transcatheter heart valve (S3-THV) versus the SAPIEN XT valve (XT-THV).

Methods

We retrospectively analyzed 507 patients that underwent TAVI with the XT-THV and 283 patients that received the S3-THV at our institution between March 2010 and December 2015.
