Dear Science Editor, Editorial Office

Please find enclosed our revised Review

**Pharmacological and non-pharmacological therapeutic approaches in  
inflammatory bowel disease in adults**

By Gerda C. Leitner and Harald Vogelsang

to be considered for publication in World Journal of Gastrointestinal Pharmacology and Therapeutics. The authors concur with the submission. The authors certify that they have no affiliation with financial involvement in any organization or entity with a direct financial interest in the subject matter or materials discussed in the manuscript. [The suggestions of the reviewer are addressed in the last page at the end of the conclusion section, last paragraph \(highlighted in blue\). It is difficult to give recommendations for problematic patients with complications.](#) The whole manuscript was revised by Harald Vogelsang from our department for gastroenterology. It is formatted according to the guidelines and contains a core tip. Thank you for giving us the opportunity to contribute this review to your journal.

Unfortunately there are 2 things cannot submit at the moment: an audio core tip and the language check, because our institution does not support this service. As mentioned in the e mail I will pay it by my own, if it can't be avoided.

With the best greetings, and many thanks

Gerda C Leitner, M.D.
