**Association of insertion-deletions polymorphisms with colorectal cancer risk and clinical features**

Marques D *et al.* INDEL polymorphism in colorectal cancer

## Abstract

### AIM

To investigate the association between 16 insertion-deletions (INDEL) polymorphisms, colorectal cancer (CRC) risk and clinical features in an admixed population.

### METHODS

## Match Overview

1	Internet 416 words crawled on 20-Jul-2017 <a href="http://www.repositorio.ufrn.br:8080">www.repositorio.ufrn.br:8080</a>	11%
