

22980-Clinical trial registration statement

Dear editor,

Although our study is a clinical trial study, but it's a retrospective study. And the methods and enhanced drugs (SonoVue) we use is commonly used in every day clinical practice such as liver, heart and kidney. And the use in breast is also allowed in the use table of the SonoVue instruction book. So we just putted on records in our hospital and didn't get any registration number.

Thanks!

Dr. Luo jun
