作者: BS Jani - 2016 - 被引用次数: 1 - 相关文章

[43] For uncinate process lesions, the use of a 22G needle has been reported to be .... A different suction technique, which uses capillary aspiration by slow withdrawal ... lesions with stylet capillary sampling compared with conventional suction. ... [89] Nakai et al. compared slow pull versus suction in EUS-FNA of pancreatic ...

### Diagnostic ability of EUS-FNA for pancreatic solid lesions with ...

[https://www.researchgate.net/.../273119128\\_Diagnostic\\_ability\\_of\\_EUS-FNA\\_for\\_panc...](https://www.researchgate.net/.../273119128_Diagnostic_ability_of_EUS-FNA_for_panc...)

... solid lesions with conventional 22-gauge needle using the slow pull technique: a .... Key Words: EUS-FNA, pancreatic solid lesion, slow pull technique, suction. Introduction ..... FNA was not significantly different from that of SA-FNA.

### New endoscopic ultrasonography techniques for pancreaticobiliary ...

[e-ultrasonography.org/journal/view.php?number=133](http://e-ultrasonography.org/journal/view.php?number=133) ▾ [翻译此页](#)

作者: K Kamata - 2016 - 被引用次数: 1

In order to improve the histological diagnostic yield, a EUS-FNA needle with a core ... This technique is useful in the diagnosis of pancreatic solid lesions and in ... solid pancreatic tumors than 22-gauge FNA needles (pooled sensitivity: 93% for ... after the mass is punctured, the stylet is slowly pulled out without suction [21].
