COMMENTS TO AUTHORS

Though, there have been many of reports about AUD association with HCV and HIV infection, as well as HCV/HIV co-infection, I still appreciate this review including the new understanding and new ideas and good suggestions you give. Your data will help control of AUD associated problems.

COMMENTS TO AUTHORS

Alcohol use disorder with HIV and HCV infection has been a problem for antiviral therapy. This manuscript has systematically reviewed the most updated lectures and provided a complete, exhaustive summary on this issue. Quite an excellent review article.

COMMENTS TO AUTHORS

This manuscript is on the alcohol use disorder and its impact on chronic Hepatitis C Virus and HIV infections. It is well written and is very informative with latest literatures. Although reducing alcohol consumption is quite challenging, I hope this review will draw attention from people to focus on reducing alcohol consumption among individuals with HCV infection or HCV/HIV co-infection for better treatment.
