Current trends in laparoscopic groin hernia repair – a review

Harvinder Singh Pahwa, Awanish Kumar, Prerit Agarwal, Akshay Anand Agarwal

Abstract

Hernia is a common problem of the modern world with its incidence more in developing countries. Inguinal hernia is the most common groin hernia repaired worldwide. With advancement in technology operative techniques of repair have also evolved. A PUBMED and COCHRANE database search was accomplished in this regard to establish the ⁶current status of laparoscopic inguinal hernia repair in view of recent published literature. Published literature support that laparoscopic ²
