Retrospective Study

Safety of fecal microbiota transplantation in Chinese children: A single-center retrospective study

Xin-Yue Zhang, Xiao-Lu Li, Hui Hu, Hai-Feng Liu, Dan Li, Yong-Mei Xiao,
Yi-Zhong Wang, Ting Zhang

Abstract

BACKGROUND

Fecal microbiota transplantation (FMT) is the administration of fecal bacteria liquid from healthy donors to a recipient's digestive tract, which is recommended as a therapeutic method for recurrent *Clostridium difficile* infection (CDI). Many clinical trials focused on different diseases were in
