Lupus enteritis as the only active manifestation of systemic lupus erythematosus: A case report

Gonzalez A *et al.* Lupus enteritis

Adalberto Gonzalez, Vaibhav Wadhwa, Fayssa Salomon, Jeevna Kaur, Fernando J Castro

Abstract

BACKGROUND

Lupus enteritis is a rare manifestation of systemic lupus erythematosus (SLE). Diagnosis of this condition is difficult, especially in the absence of other symptoms related to active SLE. We present the case of a 25-year-old female with
