**Reconstruction of massive skin avulsion of scrota and penis by combined application of dermal regeneration template (pelnac) and split-thickness skin graft with the assist of vacuum closure: A case report**

Jia-Jie Fang, Peng-Fei Li, Jia-Jun Wu, Hai-Ying Zhou, Li-Ping Xie, Hui Lu

## **Abstract**

### **BACKGROUND**

Though skin avulsions to male external genitalia are rare, they can be both physically and psychologically traumatic when occurs. Thus, the necessity of judicious management poses significant challenges to surgeons in case of potential permanent disabilities. We happened to encounter a case of massive penoscrotal skin avulsion
