**Treating severe periodontitis with staged load applied implant restoration:
A case report**

Wang SH *et al.* Staged load applied implant restoration

Shu-Hua Wang, Wang-Cheng Ni, Ren-Fei Wang

Abstract

BACKGROUND

Because immediate implant surgery is not recommended for patients who have been diagnosed with periodontitis, researchers have treated these patients with a variety of methods, including combining orthodontic and periodontal surgeries as well as implantation. However, these treatments cost time and money for the patient. Although it has been reported that temporary implants released a severe gag reflex in a case, only a few studies have documented using
