## An In-Depth Look at Small Cell Carcinoma of the Ovary ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6329856>

Jan 01, 2019 · Background. Small cell **carcinoma** of the ovary is a **rare**, lethal cancer, containing two different subtypes: the pulmonary type (small cell **carcinoma** of the ovary, pulmonary type (SCCOPT), and hypercalcemic type (small cell **carcinoma** of the ovary, hypercalcemic type, SCCOHT) 1.SCCOPT resembles small cell **carcinoma** of the lung owing to its neuroendocrine ...

Endometriosis is specifically associated with an increased risk of endometrioid and clear cell **ovarian** cancer, but not **high**-grade serous **carcinoma** or **mucinous** tumors. PCOS can result in irregular menstrual periods or a lack of menstruation, oily skin that is prone to acne, cysts on the ovaries and mild hirsutism (a male pattern of hair growth).

## Recent Progress in the Diagnosis and Treatment of Ovarian ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3576854>

Early detection is the key to the **successful treatment** of **ovarian** cancer; however, EOC is rarely diagnosed at an early stage because the disease causes few specific symptoms when it is localized to the ovary. It is estimated that **only** 15% of **ovarian** cancer is localized to the ovary, 17% is regional, and 62% occurs as distant disease.

### [Rare case of remission of a patient with small cell ...](#)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6976912>

1. Introduction. Small cell carcinoma of the ovary (SCC) is a very rare, highly undifferentiated, aggressive malignancy that affects young women [] and linked to a poor prognosis []. First reported in 1982 by Dickersin et al. [] there are two subtypes of SCC, the hypercalcaemic type (SCCOHT) and the pulmonary type (SCCOPT). SCCOHT is extremely rare and represents less than 1 % of ovarian ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6721345>

Jul 24, 2019 · In a case report from 1978, Griffith et al. described what it is considered to be the first case of right ventricular outflow tract obstruction by a metastatic deposit from ovarian carcinoma. It was only after the patient's death, that diagnosis was certified, suggesting an ovarian primary with a solitary metastasis to the myocardium .

## Cutaneous Metastases in Ovarian Cancer

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6788186>

Sep 02, 2019 · Skin metastases in **ovarian** cancer are uncommon, but their incidence may be increasing due to improved survival rates. Skin metastases can be divided into umbilical metastases, which are known as Sister Joseph nodules (SJNs) and are associated with peritoneal metastasis, and non-SJN skin metastases, which usually develop within surgical scars and in the vicinity of superficial ...

Following this surgery, a patient will receive **chemotherapy**. Many different **chemotherapy** drugs and regimens can be used. Occasionally, **chemotherapy** can also be given before surgery. This **treatment**, called neo-adjuvant **chemotherapy**, helps shrink the tumor and make it easier to remove. The **chemotherapy** regimen for **ovarian** cancer is fairly standard.
