Solitary fibrous tumor of the pancreas: Case report and ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4919714>

Jun 27, 2016 · Solitary fibrous tumor (SFT) is a mesenchymal tumor typically located in the pleura, but can also be found as an asymptomatic mass in other areas, including the liver, peritoneum, kidney and salivary glands. However, SFT rarely locates in the pancreas. We present such a case of pancreatic SFT, along with a review of all reported cases.
