## Skull metastasis from hepatocellular carcinoma with ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2999177>

Mar 15, 2010 · Magnetic resonance imaging showed bone **metastasis** in the **thoracic vertebrae**. Assays for **hepatitis B** surface antigen and **hepatitis B** core antibody were positive and his liver condition was Child-Pugh grade A. Our diagnosis was **hepatocellular carcinoma** (HCC) with skull and **vertebrae metastases** on chronic **hepatitis B**.

Hepatocellular carcinoma may present in various ways, but only a few instances present with symptoms of distant **metastases**. This **report** describes a case of **hepatocellular carcinoma** presenting with ...

## Clinical features and prognosis of patients with ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4065897>

Jan 21, 2007 · INTRODUCTION. **Hepatocellular carcinoma** (HCC) is a highly malignant tumor with frequent intrahepatic **metastasis**. The prognosis of HCC patients has improved because of progress in therapeutic procedures, such as surgical resection, radiofrequency ablation (RFA), percutaneous ethanol injection (PEI), and transcatheter arterial chemoembolization (TACE)[1-3].

## intralesional expansile ball-like: Topics by Science.gov

[www.science.gov/topicpages/i/intralesional+expansile+ball-like.html](http://www.science.gov/topicpages/i/intralesional+expansile+ball-like.html) ▾

Pure spinal epidural cavernous angiomas are extremely rare lesions, and their normal shape is that of a fusiform mass in the dorsal aspects of the **spinal canal**. We report a case of a **lumbo-sacral epidural cavernous vascular malformation** presenting with acute onset of right-sided S1 radiculopathy.

## Argon-helium cryoablation for thoracic vertebrae with metastasis of hepatocellular carcinoma-related hepatitis B: A case report

Tan YW *et al.* Thoracic vertebrae with metastasis of HCC-related hepatitis B

You-Wen Tan, Yun Ye, Li Sun

### Abstract

#### BACKGROUND

Spinal metastasis of hepatocellular carcinoma (HCC) is rare, with an extremely poor prognosis and results in severe pain. Argon-helium cryotherapy is a local ablation method for HCC.
