### [Cardiac impalement injury by a steel rebar: A case report ...](#)

<https://www.sciencedirect.com/science/article/pii/S2210261219307096>

Jan 01, 2020 · We report a patient with injuries to the heart and other internal organs due to impalement by a steel rebar who was successfully treated by CPB. Cardiac trauma may be classified as non-penetrating (referred to as blunt cardiac injury) and penetrating injuries. Cardiac penetrating injuries are rare but are more dangerous and fatal.
