Radiological insights of ectopic thyroid at the porta hepatis: A case report and review of literature

Chooah O *et al.* Ectopic thyroid at the porta hepatis

Outesh Chooah, Jing Ding, Jing-Lei Fei, Fang-Yi Xu, Ting Yue, Cai-Ling Pu, Hong-Jie Hu

Abstract

BACKGROUND

Ectopic Thyroid is defined as a rare developmental anomaly where thyroid tissues are atypically found in locations other than its normal anatomical position: anterolateral to the second, third and fourth tracheal cartilages. An intemperate descent or a migration failure of the thyroid anlage results in sub diaphragmatic thyroid ectopia to be a sparse

Ectopic Thyroid Gland in the Porta Hepatis and Lingua ...

<https://www.liebertpub.com/doi/abs/10.1089/105072503322021188>

A rare case of an ectopic thyroid gland in the porta hepatis and in the tongue in an asymptomatic euthyroid 24-year-old woman is reported. A solitary inhomogeneous, hypoechogenic and hyperechogenic mass in the porta hepatis was accidentally discovered by ultrasonography. Subsequent computed tomography demonstrated a heterogeneous, well-defined tumor with small calcifications without signs ...

Dual ectopic thyroid: a case report with review of literature.

europepmc.org/articles/PMC3522407 ▾

Mar 30, 2011 · Twenty-seven patients of dual ectopic thyroid have been reported in literature, reviewed in recently published articles by the author and thereafter two more cases of dual ectopic thyroid were found on search in Pubmed. The age range of these 30 patients (including the present case) was 4-71 years with a female to male ratio of 1.5:1. The patients were either asymptomatic or ...

Ectopic submandibular thyroid tissue with a coexisting ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3028457>

This is the sixth case report of simultaneous finding of submandibular ectopic thyroid tissue and a functional orthotopic thyroid gland. The case illustrates the potential for rare sites of ectopic thyroid gland lateral to the midline, which enters into the differential diagnosis with metastasis from well differentiated thyroid cancers.
