[Post traumatic left cardiac luxation: A case report](#)

<https://pubmed.ncbi.nlm.nih.gov/32474377>

Introduction: **Rupture** of the **pericardium** complicating blunt thoracic **trauma** may lead to **cardiac** luxation if not early recognized and appropriately surgically treated. This condition is exceedingly rare and carries a high mortality rate. **Case** presentation: A 37-year-old man presented with severe multiple injuries following a road traffic crash, including blunt **trauma** to the thorax and ...

Blunt Force Thoracic Trauma: A Case Study of Pericardial ...

<https://www.hindawi.com/journals/cris/2014/946061> ▾

We present a **case** of blunt force **thoracic trauma** leading to a **pericardial rupture**, with acute **cardiac herniation**, which resulted in cardiogenic shock. The **reported case** not only demonstrates the difficulty of initial **diagnosis** but also highlights clinical and radiographic findings which could have identified the injury earlier in this patient's course.
