<https://onlinelibrary.wiley.com/doi/full/10.1111/hsc.12620>

Jul 20, 2018 · Scoloveno described resilience as positive adaptation or coping in the face of severe stress or adversity; however, it is unclear whether resilience is the result of an intervention or a moderating/mediating factor. As such, it is difficult to view resilience simply as a single construct, and its complex and multidimensional properties may ...
