**Biliary tract intraductal papillary mucinous neoplasm: Report of 19 cases**

Xing Wang, Yun-Qiang Cai, Yong-Hua Chen, Xu-Bao Liu

### Abstract

**AIM:** To gain a better understanding of biliary tract intraductal papillary mucinous neoplasm (BT-IPMN).

**METHODS:** From January 2000 to December 2013, 19 (5.5%) cases of BT-IPMN were retrospectively identified from a total of 343 biliary tract tumors resected in our single institution. Demographic characteristics, clinical
