4 Anti-EGFR monoclonal antibodies in metastatic colorectal cancer: A meta-analysis

Qi-Bin Song, Wang Qi, Wei-Guo Hu

Abstract

AIM: To investigate the correlation between *Kirsten rat sarcoma viral oncogene homolog* (*KRAS*) status and the therapeutic effects of anti-EGFR monoclonal antibodies (MoAbs) in metastatic colorectal cancer (mCRC).

METHODS: Randomized controlled trials (RCTs) were identified and the association between *KRAS* mutation and clinical outcome in mCRC patients
