Herbal traditional Chinese medicine and its evidence base in gastrointestinal disorders

Rolf Tsuchida, Albert H. Wolff, Christian Freyzer, Axel Eckhoff, Johannes Scholze

Abstract

Herbal traditional Chinese Medicine (TCM) is used to treat several ailments, but its efficacy is poorly documented and hence debated, as opposed to modern medicine commonly providing effective therapies. The aim of this review article is to present a practical reference guide on the role of herbal TCM in managing gastrointestinal disorders, supported by systematic reviews and evidence based trials. A literature search using herbal TCM combined with terms for gastrointestinal disorders in PubMed and the Cochrane database identified

Herbal traditional Chinese medicine and its evidence base in gastrointestinal c
