Outcome and costs of laparoscopic pancreaticoduodenectomy during the initial learning curve versus laparotomy

Chun-Liu Tan, Hao Zhang, Bing Peng, Ke-Zhou Li

Abstract

AIM: To compare laparoscopic pancreaticoduodenectomy (LPD) during the initial learning curve with open pancreaticoduodenectomy (OPD) in terms of outcome and costs.

METHODS: This is a retrospective review of the consecutive patients who underwent LPD between December 2009 and April 2014. The experiences of the
